REMARKS

This Amendment is intended to supplement the Amendment previously filed on April 27, 2007. Claims 16 and 20 are amended herein. Thus, claims 11 and 14-21 remain pending.

In the Amendment dated April 27, 2007, claim 16 and 20 were amended to place the claims in a more traditional U.S. format. More specifically, claims 16 and 20, which originally incorporated by reference the elements of claim 11, were amended to expressly set forth the elements of claim 11. However, the element of the alloy having a tensile strength of at least 765 mPa was mistakenly omitted. Accordingly, claims 16 and 20 are now further amended to incorporate that limitation.

Accordingly, Applicant respectfully submits that the application is now in proper form for allowance, which action is earnestly solicited. If resolution of any remaining issue is required prior to allowance of the application, it is respectfully requested that the Examiner contact Applicant's attorney at the telephone provided below.

Respectfully submitted,
